

Mortimer Master Chefs

Home Learning

For our project we will be learning about healthy eating, the digestive system, food chains and how to cut, prepare and cook a range of foods. We will also be creating a Year 4 recipe book to share with the community! For home learning, you will be baking a biscuit *or* flapjack recipe and then adapting it to create your own recipe. You will need to taste test and evaluate what you create.

1. Parent led activity- Take the basic biscuit or flapjack recipe we have provided and have a go at making it. Once you have baked it, complete the taste evaluation sheet.

3. Joint activity- Now bake the new recipe. See if you have the balance right. You might have to repeat this stage if your biscuits or flapjacks don't taste that great!

When you are happy with your new recipe, upload it to Seesaw with a photo of your creation!

2. Child led- Think about other ingredients that you could add to it to improve it. What would compliment or add something extra to make it taste better?

Add these ingredients, not forgetting to specify the amounts and unit of measure on the recipe.

Please upload a photo of your creation to Seesaw and either upload or bring in a copy of your evaluation sheet and taste test sheet by **13.07.2026**

Please don't hesitate to get in contact with your child's teacher if you need support in getting the required ingredients.
